

RACK MOUNT POWER INVERTERS

The AIMS Rack Mount 1U / 2U Power Inverter product line provides seamless, essential backup power for equipment such as: telecom, audio / visual and computers. These inverters are designed for 24 and 48 VDC systems. The built in transfer switch will by-pass city power when it is available and when city power is lost, the inverter will automatically switch to the backup DC power source. Remote monitoring of the DC input, AC output, frequency and amps is available through a RS232 communication port.
